DROP IN BATHTUB

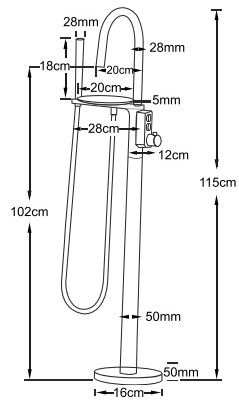

All Breaths are changed into the silent things which grow stealthily in the deep memory.
All these are so simple and poetry, harmonious and kindly.

HIGH FAUCET SERIES

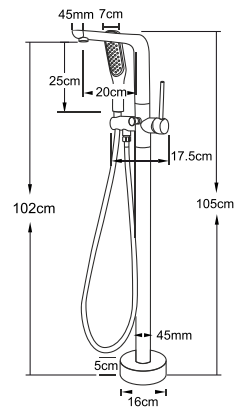

The design pursuance of I-FOC sanitary bath products fully shows the comfortable feeling, and not only fills with the distinctive details but also has the vivid individuality. We only insist on a principle, namely all take the comfort as standard.

The best in sensitivity

Advanced capacitive touch screen technology Reliable performance in moist steam room

V6i Touch Control

FEATURES:

- Elegantly designed 5" IPS Retina LCD display, with advance capacitive Touch screen technology blends perfectly into your space.
- Enjoy soothing music whilst relaxing, with our 35W steam proof Bluetooth stereo kit music function, a must for music lovers!
- Built-in Smart sensors allows V6i to install both inside or outside of steam room.
- Control all of your steam functions on App by simply connecting your mobile with the Wifi box.
- Energy saving ECO mode.
- Set the mood you desire by selecting the color or cycle from one to the next directly from V6i or V3i touch control.
- Enhance your steam bath experience with Aroma therapy pump which dispense essential oils into your steam shower.
- Upto 5 family members can set their preferred steam temp. & time.
- Invisible 3M adhesion for easy and simple installation.

PERFORMANCE FEATURES:

- Elegant and user friendly operating system.
- Compact dimension but fully serviceable with all components replaceable.
- Precise temperature sensor for optimal steam shower temperature control.
- Stainless steel 316 heating element with UL certificate.
- Fully operational with both V6i and V3i Touch control.
- Time and temperature adjustment.
- Fully tested and approved - safe and reliable, CE/TUV certified.
- Easy-to-add plug and play accessories can be installed up to 60ft away from steam shower.
- Stainless steel 304 tank, long life elements and solid state electronics.
- Auto drain hard water and lime scale, which extends service life.
- Power range: 4.5kW, 6.5kW, 9.5kW, 12kW, 15kW, 18kW, 21kW.

ACCESSORIES:

TS Series Touchpad Steam Generator

An innovative design with best in class steam bath generators, controls and accessories. Providing a comfortable steam bath experience is exactly what we had in mind with steam generators.

FEATURES:

- Touch pad control panel
- Time & Temperature functions
- Remote control
- Stainless steel 304 water reservoir
- Electronic water level control system
- Steam room temperature sensor
- Constant steam flow & Quiet function
- Steam nozzle (S.S. chrome)
- Industrial grade heating elements
- Over pressure safety valve in brass
- Auto drain - Fresh water after every use
- Inlet brass, outlet in SS
- Single phase : 4.5 KW, 6.5 KW
- Three phase : 9.5 KW, 12 KW, 15 KW,

DS Series Digital Steam Generator

Steam at home is truly the ultimate luxury - an oasis of calm as a complete release from the stresses of hectic daily life.

FEATURES:

- Digital control panel
- Time & temperature functions
- Stainless steel 304 water reservoir
- Electronic water level control system
- Constant steam flow & Quiet operation
- Steam nozzle (S.S. chrome)
- Pressure safety valve
- Auto drain
- Inlet - Teflon sonet valve
- S.S. Outlet
- Industrial grade heating element
- Single phase : 4.5 KW, 6.5 KW

MULTI POINT USAGE

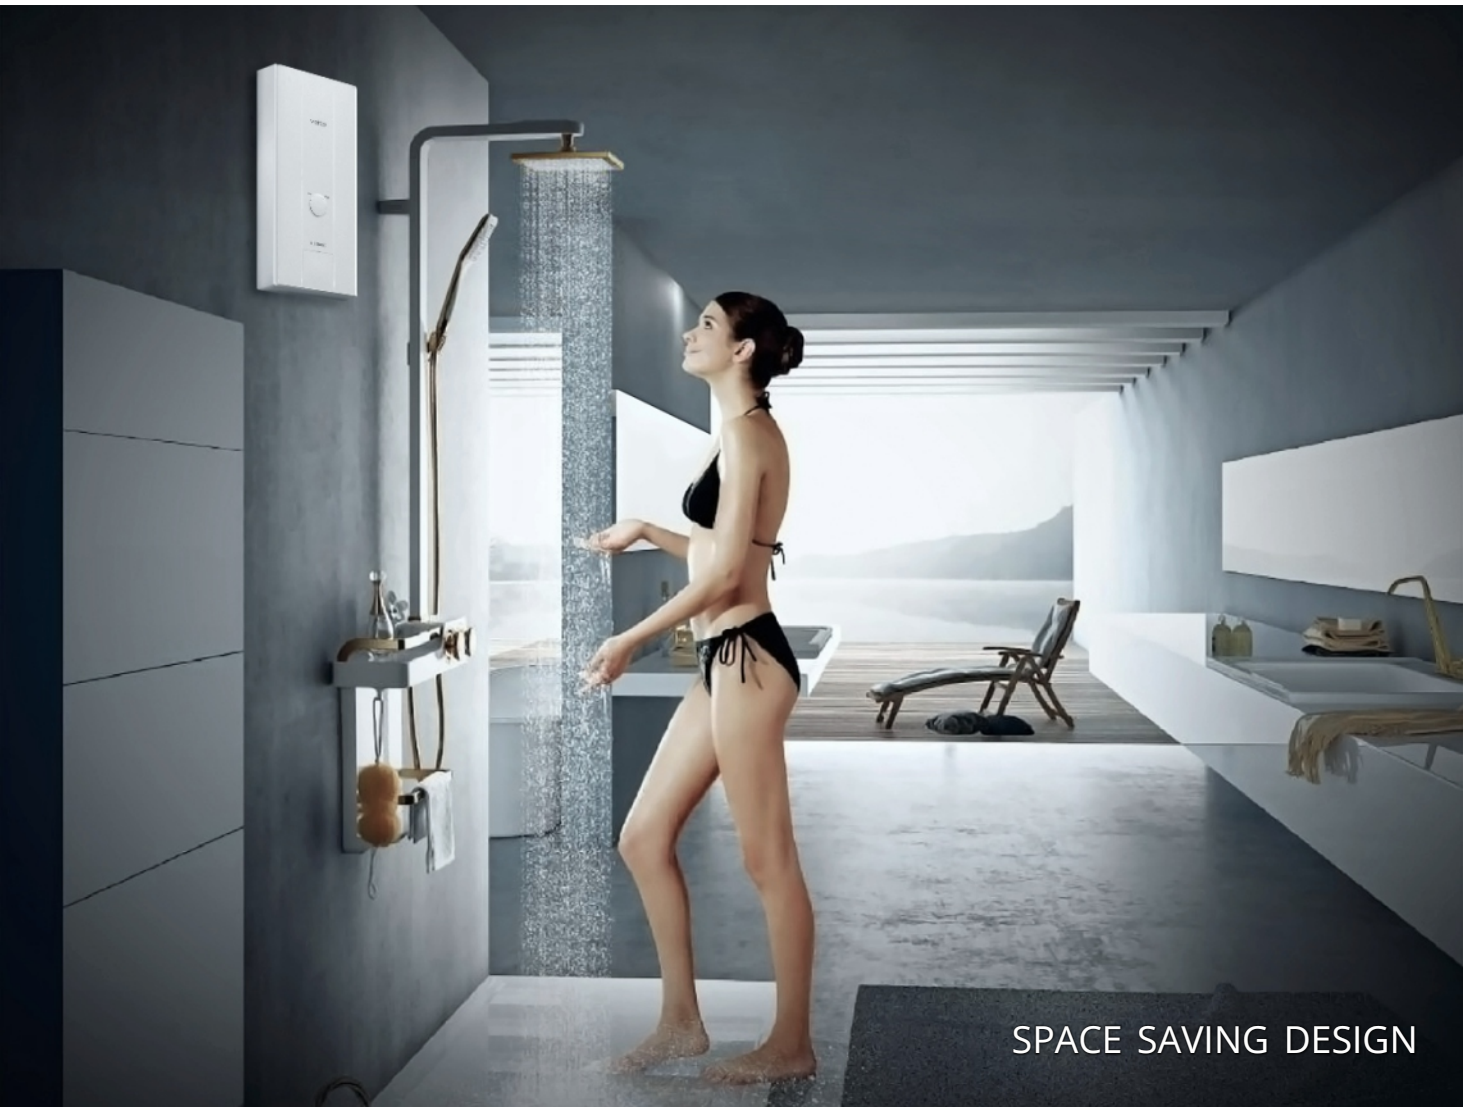

BLUE S

INTELLIGENT WATER HEATER FOR LUXURY BATHROOM (15-27kW)

Making powerful things simple requires some seriously advanced technologies. Every component in the Blue S is optimized for performance. It has an impressive capacity to provide hot water you need everyday. You can adjust the water temperature from 20°C to 60°C by using the knob on the device. A built-in sensor detects changes in water temperature and adjusts the heating power automatically. Safe and reliable to use with an energy efficiency class A with IP rating 25.

FEATURES:

- Multi-function display
- Digital temperature adjustment
- Fully electronically controlled
- Multi-point usage
- Hot water in seconds
- Energy efficient
- Space-saving design
- Solar compatible

SPACE SAVING DESIGN

BLUE E

SMART TANKLESS ELECTRIC WATER HEATER (15-27kW)

Blue E has been engineered from the ground up for efficient performance. It is designed to install effortlessly in your house. It provides hot water to the shower, kitchen or anywhere you need. The heating elements in Blue are designed with enormous attention to detail, and are assembled with extreme precision and care. You can set the heating power to two different levels by using the knob on the device. Safe and reliable to use with an energy efficiency class A with IP rating 25.

FEATURES:

- Fully electronically controlled
- Multi-point usage
- Overheat protection
- Easy to use
- Hot water in seconds
- Energy efficient
- Space-saving design
- Solar compatible

FLOW E

INSTANT ELECTRIC WATER HEATER (7.5-12kW)

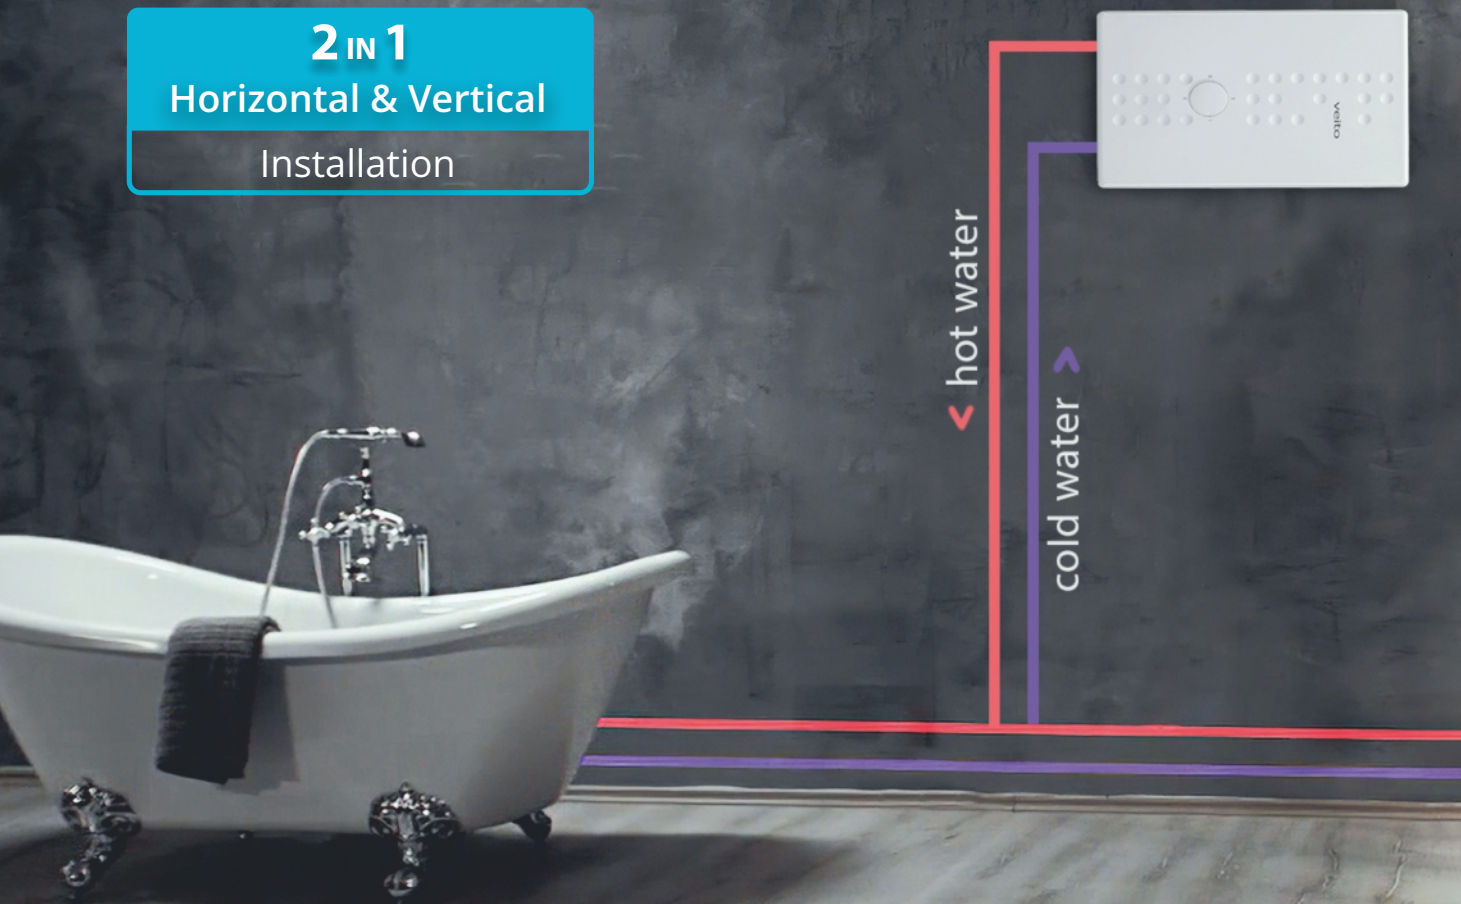

Every component in FLOW E is optimized for performance. Each component has been rethought, from the heating element to the knob. The result is more than just a new water heater. It has an impressive capacity to provide hot water you need everyday. You can adjust the water temperature from 20°C to 55° by using the knob on the device. A built-in sensor detects changes in water temperature and adjusts the heating power automatically. Has an energy efficiency class A with IP rating 25.

FEATURES:

- Fully electronically controlled
- Multi-function display
- Hot water in seconds
- Multi-point usage
- Energy efficient
- Digital temperature adjustment
- Easy to use
- Overheat protection
- Solar compatible
- Vertical & horizontal use

SP3

SCALE PREVENTION FILTER - NAC TECHNOLOGY

Scale Preventer SP3 is a product based on **Nucleation Assisted Crystallization (NAC)** process that is used all over in "whole house treatment" as well as commercial systems to prevent and to reduce scale formation.

FEATURES:

- Environmentally friendly
- Removes the previous scale in the system
- Catalytic process converts Ca and Mg into harmless micro crystals
- Maintenance free. No extra cost incurred
- Saving space solution
- Very easy to install

- ✓ NO chemicals
- ✓ NO backwashing required
- ✓ NO regeneration required
- ✓ NO power supply required
- ✓ NO drain connections required
- ✓ NO control valves required

APPLICATIONS:

- Water pipes
- Shower heads
- Toilets
- Beverage systems
- Dish washers
- Ice makers
- Ice cubers
- Washing machines
- Hot water cylinders
- Dairy processing
- Air humidifiers
- Coffee machines
- Tea makers
- water coolers
- Breweries
- Wineries
- Domestic boilers
- Air conditioners
- water heaters
- Car washing
- Nurseries
- Irrigation
- Injection moulding
- Concrete/Cross flow
- Coffee/vending machines
- Food and beverage making
- Catering water boilers
- Commercial water heaters*
- Industrial hot water boilers*
- Open/Closed circuit cooling towers
- Solar heating systems
- Pressurized/unvented cylinders

Salinity, max. ppm	35000
Iron, max. ppm	0.5*
Manganese, max. ppm	0.05
Free chlorine, max. ppm	3

UNIQUE FEATURES OF LD3

NO TDS CHANGE: LD3 doesn't alter water content; no ion-exchange changes TDS before/after treatment.

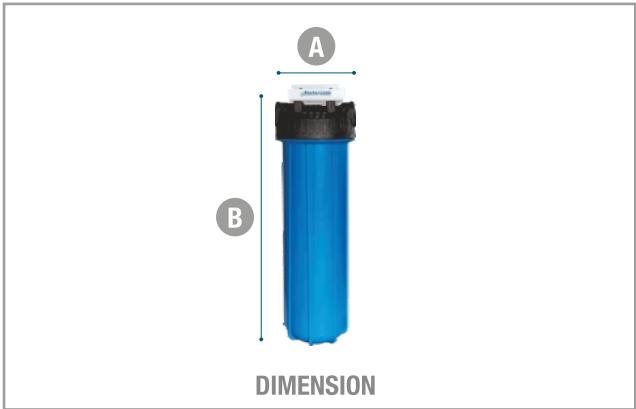

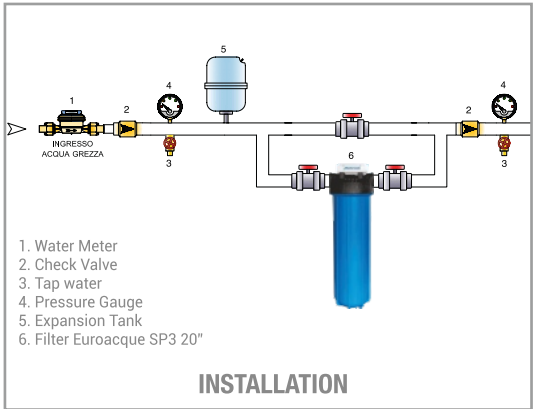

NO PH CHANGE: The consistent pH makes the treated water suitable for nearly corrosion-free use.

MINERALS PRESERVED: LD3 preserves water's natural Calcium and Magnesium, creating exceptionally healthy mineral water.

DE-SCALING: LD3 water not only prevents scale but also removes existing scale through crystal abrasion during water flow.

BIOCIDES: The NAC process forms CO2 micro-bubbles that both prevent scaling and act as a biocide by destroying bacterial membranes, preventing Biofouling.

CERAMIC BEAD TECHNOLOGY: Unlike other treatments, NAC involves self-assembling durable crystals on bead surfaces. LD3 beads have a dual glass coating (CBT) for protection and performance.

EKOSOFT

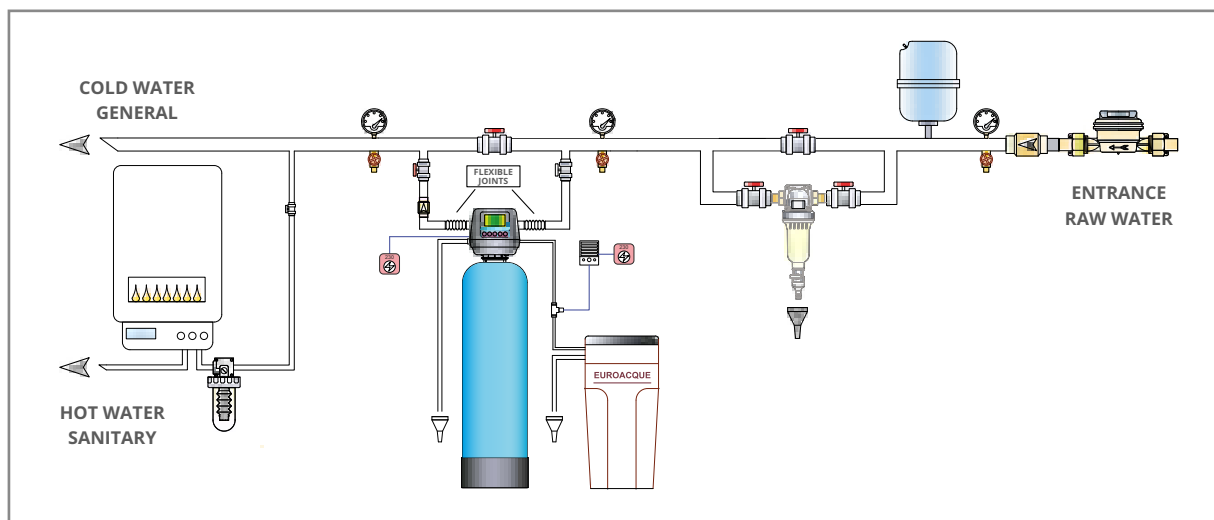

DIGITAL AUTOMATIC WATER SOFTENERS

Enhance your water softening experience with EKOSOFT's digital automatic water softeners. These innovative softeners boast a digital electronic control valve for volume and time regeneration, seamlessly integrated with a hardness blending valve for maximum efficiency.

FEATURES:

- Digital electronic controller
- Volume and time regeneration
- Integrated hardness blending valve

RIVER ARGENTO PRO

KIT MICRO-FILTRATION FOR DRINKING WATER WITH LED TAP

At home, with River/Pro you always have good water available to you, for the environment and for your savings, it improves organoleptic characteristics of your mains water. It eliminates unpleasant taste and odour and all the undesirable substances such as Chlorine and its derivatives, Trihalomethane, Atrazine, pesticides, fertilisers and herbicides.

Low cost at a price that is accessible to all, the kit provides drinking water at a cost up to 1000 times less than bottled water. Easy installation, it is sufficient to place the cartridge under the sink and connect it to the supplied tap.

Space saver and without electrical connection, with its elegant design and linear stile, the tap supplied with the kit adapts to any type of kitchen. Completely made in stainless steel it signals through the luminous LED that the cartridge is finished.

The kit guarantees maximum safety this way. You can replace the filter. Maintenance consists in replacing the exhausted filter.
